

**T**he 407CI 3 gallon Construction Sprayer is designed specifically for use in concrete preparation and treatment.

The first thing you notice about the Solo sprayer is that it looks different from any sprayer you've ever seen. Once you have used one, you will discover that it performs better than any sprayer you've ever used!

With its rugged polyethylene tank, the biggest pump in the industry, an unbreakable wand, and a 1GPM nozzle that delivers today's heavier solid content compounds effectively, the 407CI sprayer is designed to provide outstanding performance, efficiency, and durability.

# **solo**<sup>®</sup>

## **407CI Contractor / Industrial Sprayer**

### **Uses**

- ◆ **Curing Compound** - The 407CI is fitted with a 1 Gallon Per Minute Flat Fan nozzle installed, which is ideal for spraying higher solid content compounds. The extra high volume pump makes keeping sufficient pressure easier than other sprayers. An air inflation valve is provided for added convenience when there is a compressed air system available to pressurize the tank.
- ◆ **Form Release Agents** - The nozzle assembly system makes it easy to change the nozzle to the .40 GPM Flat Fan or the Adjustable nozzles provided, to apply at the rates required for your particular application.
- ◆ **General Spraying** - It takes only seconds to adapt this versatile sprayer to perform a wide variety of spraying tasks.

# Features

- ◆ **Heavy-Duty Polyethylene Tank** - You can park a truck on this baby! Has ultra-violet inhibitors for exceptional durability and is translucent to easily monitor formula levels.
- ◆ **4.5" Opening** - Allows easy filling and thorough cleaning.
- ◆ **High Volume Pump** - Pressurizes 50% faster than most other pump systems.
- ◆ **Extra Large Pump Handle** - Assures comfortable use by even the biggest hands.
- ◆ **Extra Heavy Space Age Piston** - Honeycomb design provides exceptional strength.
- ◆ **Inflation Valve** - Allows the option of pressurizing the sprayer using a compressed air source. Use caution when pressurizing. Make sure pressure relief valve works freely.
- ◆ **Pressure Relief Valve** - Automatically releases pressure at 45psi to avoid dangerous over pressurization. Allows manual release of pressure as well.
- ◆ **Viton® Seals** - Improves durability and safety with a wide variety of chemicals.
- ◆ **Spraying Systems® Compatible** - The nozzle assembly accepts Spraying Systems® and other industry standard nozzles.
- ◆ **4' High Pressure Hose** - Extra long, super tough, and very flexible to provide superior performance.
- ◆ **Parts Readily Available & Easy To Replace** - Most maintenance can be accomplished in seconds without tools! Increases the useful life of your sprayer.
- ◆ **Professional Shut Off Valve** - Designed to reduce user fatigue. Easy to rebuild.
- ◆ **22" Unbreakable Wand** - Virtually eliminates the chance of wand breakage on the job. Extra length allows access to hard to reach places.
- ◆ **Webbed Nylon Carry Strap** - Makes the sprayer easier to transport.
- ◆ **1 Year Commercial Warranty** - Warranty against defects in material and workmanship.

Model #	407CI
UPC # 7 20343	406009
Capacity	3 Gal
Wand	28"
Hose	48"
Pump	piston
Cubic Feet	1.09
Weight	7.25 lbs
