

468 BACKPACK AIR BLOWER

Quickly and easily blow leaves, trash, and other debris in warehouses, stadiums, and other large areas.

The new backpack Air Blower model 468 combines a very low weight and a high fan air volume with low consumption and emissions. Maximum performance, optimum reliability and improved environmental characteristics were key factors in the development of the SOLO blower. And last but not least, the price-performance ratio is one of the most significant arguments of the new SOLO blower 468.

Modell	MASTER 468
UPC	72034346800 7
Engine	SOLO 2-Stroke
Displacement	66.5 cc
Power	2.1 kW (2.9 HP)
Fuel tank capacity	1,4 l / 0.37 gal
Maximum fan air volume	1400 m ³ /h / 824 cfm
Horizontal reach	11 m / 36 ft
Dry weight	8.4 kg / 18.6 lbs
Carburator	Diaphragm with primer pump

- New 66.5 cc engine to generate a fan air volume of max. 824 cfm for total plant penetration
- Aluminum crankcase and high quality engine components for increased power output even under high temperature operating conditions
- Improved fuel efficiency and reduced emissions with modern engine technology and catalytic converter
- Large 0.37 gallon capacity fuel tank combined with low fuel consumption allow long operating periods
- Easy starting with primer bulb
- Effective vibration dampening
- Single multi-function operating handle
- Efficient air filtering system, easy to maintain
- Comfortable backpack frame with padded adjustable carrying straps
- Best weight/performance ratio in its class
- Compact size, light weight
- 2-cycle engine requires 50:1 fuel mix ratio
